Mental Health Care MATTERS

Mental health treatment — therapy, medication, self-care — have made recovery a reality for most people experiencing mental illness. Although taking the first steps can be confusing or difficult, it’s important to start exploring options.

The average delay between symptom onset and treatment is 11 YEARS

Adults with a mental health diagnosis who received treatment or counseling in the past year

45% of adults with mental illness

66% of adults with serious mental illness

51% of youth (6-17) with a mental health condition

23% of Asian adults

33% of Black adults

34% of Hispanic or Latinx adults

43% of adults who report mixed/multiracial

49% of lesbian, gay and bisexual adults

50% of white adults

For therapy to work, you have to be open to change. I’m proud to say that I changed. Therapy saved my life.
