

# NAMI 2021 Elections Information

## Online Voting

NAMI conducts voting on an industry-leading online voting system called Evote using a well-regarded site, ElectionsOnline ([www.electionsonline.com](http://www.electionsonline.com)).

### What does this mean for NAMI Affiliates and NAMI State Organizations?

- When NAMICON is held in person, Affiliates and State Organizations who are not able to attend Convention are able to cast their ballots directly, as opposed to returning a physical Absentee Ballot.
- Affiliates and State Organizations who are able to send someone to Convention but would prefer that person take part in other activities occurring the day of voting, can cast their vote in advance using this online system.
- Time and money are saved – once the person casting the vote logs into the system, it takes less than 5 minutes to complete the ballot if the choices have already been made. And, no need for a stamp!
- The ballot also has links to bios of all the candidates should the person casting the vote need a reminder.
- NAMI staff will remain responsive to any and all questions or concerns from Affiliates and State Organizations about the online system.

### How will the ease of use and privacy of voting be guaranteed?

- Votes are kept completely confidential. The system will tell NAMI **WHO** has voted, but not **HOW** they voted. The actual vote becomes secret once cast.
- The user credentials are linked to the Affiliate or State Organization identification code so there is security in knowing the vote being cast is for your group.
- Once a voter has cast the ballot, the unique user credentials are locked out so no one can use them to try to vote again.
- The system handles the vote weighting for us so no additional “math” is required by NAMI once the election is closed.
- The ballot is set so that it cannot be submitted if a voter accidentally votes for more or less than 5 candidates or skips the bylaws amendment(s). This will ensure that **EVERY** vote is counted and valid.

### Why is this beneficial to NAMI?

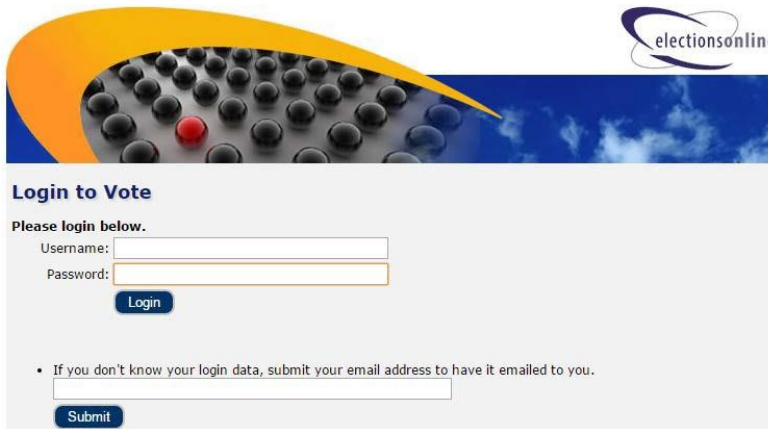

- The Evote system is a step forward in NAMI’s strategic goal in leveraging technology.
- It takes away the use of the temperamental and outdated Scantron machine NAMI used in the past to count ballots so the results of the elections are not delayed due to potential machine malfunctions or possibly even failure.
- This also means the results are tabulated immediately after the election is closed. **For 2021, the election will close on Wednesday, July 21 at 6:00 p.m. Eastern SHARP.**
- It is a HUGE savings in time and money for NAMI as a whole.
