Call to Order
The Chair called the special meeting of the NAMI Board of Directors to order on Monday, October 15, 2018 at 7:03 p.m. A quorum was declared present.

Having been notified of the agenda in advance, per Board Operating Policies and Procedures Section 6.1.3.4, the chair proceeded through the agenda.

Joyce Campbell and Charma Dudley joined the call shortly after the meeting was called to order.

Planning Committee: Strategic Planning Update
Lacey Berumen and Kelly Griffin led the board through a question and answer session with attendees from the Strategic Planning consultant group Community Wealth Partners (CWP) related to the report on the NAMI Field Listening Process. CWP provided a high-level overview of the key insights that were gleaned from the field with references to the report that was provided in advance of the meeting.

Chief Executive Officer Update
Mary Giliberti introduced the subject of NAMI’s work with youth and young adults and invited Teri Brister (Teri Brister, PhD, Director of Information, Content, & Education) to provide highlights of a recent collaboration with Publicis Health/Satchi&Satchi Wellness. She reviewed findings about young people’s attitudes about their mental health and that of others. The partnership will continue with a campaign to launch in 2019. Dr. Brister then reviewed results from recent analysis of the NAMI on Campus program. Mary Giliberti concluded the presentation with a discussion of the future of the NAMI on Campus program and NAMI’s work broadly to reach youth and young adults.
**Finance Committee Update**
Barbara Ricci and David Levy gave an update on the financial status of the organization to date. Revenue is on budget; expenses are far under budget. A re-forecasting process is underway – all signs are that there will be a very positive result for year-end. FY2019 Budgeting is underway – Board members will be offered an opportunity to weigh in on the process this year. A draft budget will be presented for comment at the November meeting with the plan to finalize either via special meeting of the Board or the Executive Committee in December.

**Capacity Building Workgroup (CBW)**
Steve Pitman kicked off this segment of the agenda with an overview of the plan for the CBW to maintain as much of the same process as last year. Jim Hayes added that the CBW is looking at tweaking areas where improvement was suggested and is warranted. Adrienne Kennedy reminded the board that the first step of the CBW process will be the Board Strengths Assessment Survey which will need to be turned around quickly in order to prepare for the November board meeting. The purpose of the Strengths Assessment is to identify board strengths among board members whose terms continue into 2019-2020, as well as to identify strength needs going forward, to be emphasized in our 2019 Call for Candidates, communicated to the field in early 2019.

**Governance Committee Updates**

**Re-affiliation Overview**
Steve Pitman introduced the re-affiliation overview with the note that, with the endorsements approved at this meeting, NAMI will be at 50.8% of affiliates completed re-affiliation.

Susan Gaffney provided some updates on the re-affiliation process across the Alliance. Better than half of NSOs are at the 50% to 100% done stages. The Standards team is optimistic about the progress of the initiative and is working double time to support all organizations invested in the process. Susan also presented a comparative of affiliates over the past five years, showing that the number of small, barely active affiliates, has dramatically reduced.

**Endorsements**
32 re-affiliation endorsements were presented by the Governance Committee for consideration by the board.
